Early Childhood Preschool
Career Technologies

ABOUT THIS FIELD
The Early Childhood Preschool curriculum prepares individuals pursuing administrating roles in diverse child care settings. This curriculum prepares individuals to work with preschool aged children (3-5) in diverse learning environments. Students will combine learned theories, competency-based knowledge and practice in actual settings with preschool children.

WHAT YOU'LL STUDY
Course work includes child growth and development, physical/nutritional needs of preschool children, safety issues in the care of preschool children; care and guidance; communication skills wih families and children; design and implementation of appropriate curriculum and other related topics.

WHAT YOU CAN DO
Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs and other preschool programs.
