

2004 – 2005 PLANNING/OUTCOMES DOCUMENT

Name of person(s) completing form:		Pete Wolosin		Curriculum/Department:		Automotive Systems Technology	
Purpose/Mission Statement				Vision Statement, 3-5 years			
The purpose of the Automotive Systems Technology program is to provide entry-level training for persons who are to become automobile repair technicians, and to provide update training for technicians already employed in the field of automobile repair.				The Automotive Systems Technology program reflects state of the art educational delivery methods by exploring new computer simulated diagnosis and repair techniques. Communication with off site educational and technical resource sites will be available through expanded internet and satellite transmissions. The automotive shop will be equipped with the latest and most current diagnostic and repair equipment.			
Goal #	Values for Teaching	College Goals	2004 – 2005 Department Outcomes/Goals	Success Criteria (e.g. outcomes, enrollment increases)	Plan of Action (including resources needed)		
1.	2, 6	1	Upon completion of the course, students will be satisfied with the skills they have achieved from the program.	90% of graduates surveyed will indicate they were satisfied with the skills gained from the program.	Monitor the results of the graduate survey as part of the annual program review.		
2.	6, 9	1	Employers will be satisfied with the entry-level skills of graduates from the program.	90% of employers surveyed will indicate they are satisfied with the entry-level skills of graduates from the program.	Monitor the results of employers' survey as part of the annual program review.		
3.	2, 6	1	Majors in the program will demonstrate a satisfactory level of technical proficiency.	90% of second year students will demonstrate technical proficiency in the course by making a final grade of C or better.	Continue to solicit feedback from advisory committee regarding those skills which are most critical in the automotive field.		

Goal	Criteria Results Be sure to utilize most current data available	End of Year Analysis (Goals achieved, impact of equipment purchased, improvements to your program, contingencies, etc.) Describe how you used the results to improve your program
1.	100% who responded were very satisfied with the course, and would take the course again if they were starting over	The annual review for the automotive systems technology program demonstrates that students who graduate from the program are satisfied with the training they are receiving. 100% who responded were satisfied.
2.	100% of employers who responded say the level of training was relevant to meet their needs for an entry level position.	The annual review also demonstrates that employers are satisfied with graduating student's abilities to repair today's automobiles. 100% who responded to the survey were satisfied.
3.	Student records reflect the grades necessary for this data.	Students who are in the second year of the program are maintaining a C average or better.
