

**PLANNING/OUTCOMES DOCUMENT**

<b>Name of person(s) completing form:</b>	Tonya S. Clark	<b>Curriculum/Department:</b>	Emergency Medical Science
---	----------------	-------------------------------	---------------------------

<b>Purpose/Mission Statement:</b>	<b>Vision Statement: (3-5 years)</b>
It is the mission of the SCC Emergency Medical Science Program to continually produce highly educated EMS professionals who will one day make a difference in someone's life.	The vision of the Emergency Medical Science Program at SCC is to gain recognition as one of the premier training sites in Western NC and to gain national accreditation.

Goal #	Values for Teaching	College Goals	2004-2005 Department Outcomes/Goals	Success Criteria (e.g. outcomes, enrollment increases)	Plan of Action (including resources needed)
1	2 6	1	Graduates will be employed in the pre-hospital setting within 3 months of graduating and/or credentialing at the state level.	90% of graduates surveyed will indicate that they have obtained employment within 3 months of graduating and/or credentialing at the state level.	Monitor results of survey of graduates as conducted as part of the annual program review.
2	6 9	1	Graduates of this program will be prepared to successfully pass the state-credentialing exam required for working in this field.	90% of first-time test takers will pass the NC EMT-Paramedic credentialing exam during the 2005-2006 year.	Monitor test results from the NC Medical Board and OEMS; Also monitor which sections of the exam present the greatest difficulty for SCC students.
3	2 6	1	Employers will be satisfied with the entry-level skills of graduates from this program.	90% of employers surveyed will indicate they are satisfied with the entry-level skills of graduates from this program.	Monitor results of survey of employers as conducted as part of the annual program review; revise survey to contain job specific skills
4	6 9	1	Graduates will be satisfied with the skills obtained in the program.	90% of graduates surveyed will indicate they are satisfied with the skills they gained in this program.	Monitor results of survey of graduates as conducted as part of the annual program review; conduct survey at the completion of Capstone course, which reviews & tests students on various skills.
5		1	The EMS Program, along with the Huskins Program, will continue to offer the EMT-Basic course at both Franklin HS and Smoky Mtn HS. In addition, the faculty/ staff will continue contacting other local high schools about beginning an EMT-Basic course.	Enrollment maintained with at least 10 students at each location.	Continue recruitment at area high schools and encourage the EMT-Basic course. Maintain employment for part-time instructor(s) for this course specifically.

<b>Criteria Results</b> Be sure to utilize most current data available	<b>End of Year Analysis</b> (Goals achieved, impact of equipment purchased, improvements to your program, contingencies, etc.) Describe how you used the results to improve your program
Currently 2 of the six students completing the program are employed.	The program will continue to assist students with finding employment opportunities. Will continue to have "mock" interviews and resumes as part of the Management course.
100% pass rate for the EMT-Paramedic state exam.	Goal of 90% was exceeded. Will continue to monitor which sections of the exam present the greatest difficulty for SCC students.
No data available at this time as to whether the students were satisfied with the skills they obtained in the program.	The program will continue to monitor the results of the surveys and emphasize those skills mentioned in future surveys/classes.
The EMT-B Huskins class was successfully conducted at two high schools during the 2003-2004 year.	The program will continue planning with local high schools and the Huskins Coordinator. In addition the program will discuss this opportunity at recruitment sessions.
