

PLANNING/OUTCOMES DOCUMENT

Name of person(s) completing form:		Meg Rollins		Curriculum/Department:		Radiography	
Purpose/Mission Statement:				Vision Statement: (3-5 years)			
The mission of the SCC's Radiography Program is to meet the needs of the students by offering innovative instruction through comprehensive educational practices that promote student achievement and academic excellence, which will enable the student to graduate with the necessary skills to succeed as a radiographer or to continue with other educational goals.				The vision of the Radiography Program is to continually strive for excellence through innovation and continuous improvement as it provides its students with marketable skills, expertise in current imaging technologies, learning opportunities in cutting-edge technology and promote critical thinking and problem-solving skills.			
Program Strengths:				Program Weaknesses:			
The Radiography program possesses many strengths, but three obvious strengths are program faculty, division support, and availability of clinical sites.				Some weaknesses include the distance of the clinical sites away from campus, and the lack of updated lab facilities in the classroom.			
Program Opportunities:				Program Threats:			
Program opportunities include developing some continuing education seminars for area RT's and clinical instructors. I think there is an opportunity to create an affiliation agreement with Western Carolina University for our graduates to transition into a 4 year degree.				The competition of other health related programs at SCC and other institutions offering Radiography. South College using Haywood Regional as a clinical site for their students.			
Goal #	Values for Teaching	College Goals	2006-2007 Department Outcomes/Goals	Success Criteria (e.g. outcomes, enrollment increases)	Plan of Action (including resources needed)		
1	1,2 ,5, 6,7 8,9	1	Graduates of the program will be prepared to pass the ARRT Registry.	90% of graduates that are first-time test takers will pass the ARRT.	Implement an online review to supplement materials and mock registries. More computer aided reviews.		
2	2,6 ,9	1 7	Employers will be satisfied with the graduates and their skills obtained from the radiography program.	90% of employers surveyed will respond yes to the graduate being adequately prepared in theory and clinical practice to assure the requirements of the job.	Employer surveys will be evaluated and a plan of action will be determined if needed as part of the annual program review. Implementation of night and weekend rotations to address the deficiency of trauma experience. Secure new lab equipment to better		

					simulate trauma and digital experiences.
3	3,4 ,5, 7,9	7 5	Graduates of the radiography program will demonstrate proficiency in written and oral communication.	90% of graduating students will score at least a 93% or above on their research pathology paper and presentation in RAD 211. 95% of employers surveyed will indicate satisfaction with graduates writing skills	Use of training received as part of the WAC project. Students will have access to two major in-class workshops on writing and a mid point peer review evaluation. Students will also be assigned various informal writing assignments designed to improve writing.
4	7,9	4	To update lab equipment with new tube and CR equipment.	Attainment of funds and installation of equipment	Continued search for funds and quotes from vendors.

Budget Item Description: (Budget items requested from college funds)	Current Year Budget:	Ongoing Operational Budget:	Expansion Budget:
Supplies-	\$1600.00	\$1600.00	
Equipment-			\$85,000
Travel-	\$3000.00	\$3000.00	
Program Accreditation-	\$1565.00	\$1565.00	
Other-			
TOTALS	\$6165.00	\$6165.00	\$85,000

Criteria Results Be sure to utilize most current data available	End of Year Analysis (Goals achieved impact of equipment purchased, improvements to your program, contingencies, etc.) Describe how you used the results to improve your program

Mid-point Review

Progress Notes:
