

2007-2008 PLANNING/OUTCOMES DOCUMENT

Name of person(s) completing form:	Elizabeth Haynes	Curriculum/Department:	Office Systems Technology
Purpose/Mission Statement:		Vision Statement: (3-5 years)	
<p>The Office Systems Technology (OST) degree program prepares students to enter the job market as administrative professionals ready to meet the challenges of a constantly changing business environment. Graduates of the OST program will be "life-long learners" who understand the importance of updating their skills continuously throughout their careers.</p>		<p>Students are learning to identify and utilize the required skills, knowledge, tools, and technical information necessary to effectively function as a professional office assistant. Students are learning to efficiently and effectively use cutting-edge technology in the areas of word processing, desktop publishing, spreadsheets, database, business graphics, and communication software. They are using state-of-the-art computers in modern labs or are accessing the academic lab from personal computers at home. Students are learning to perform basic software and hardware installation and maintenance tasks as well as learning the basics of local area networks. Students are offered opportunities to complete courses via distance education opportunities, at night, on weekends, and at off-campus sites. Instructors are interacting with employers to continuously update course content to meet their needs. All graduates of the program have created portfolios to demonstrate competencies to prospective employers.</p>	
Program Strengths:		Program Weaknesses:	
<ul style="list-style-type: none"> • Lead instructor has over six years teaching experience and over 24 years business administration in-field experience. • Healthy local job demand for graduates. • Employers are pleased with quality of graduates. • Excellent facilities are provided to students. • Individual attention can be provided to students because of low student-to-instructor ratio. • Additional courses are being developed to be offered online to meet demand of students. • People can prepare for administrative and office-related jobs within two years. 		<ul style="list-style-type: none"> • Low enrollment. 	

Program Opportunities:	Program Threats:
<ul style="list-style-type: none"> • Possibility of developing certification exams so as to enhance the employability of graduates. • Possibility of developing early college agreements with local high schools. 	<ul style="list-style-type: none"> • Erroneous (and negative) assumption that the program produces “secretaries” rather than administrative professionals. • An incorrect belief that these are dead-end jobs.

Goal #	Values for Teaching	College Goals	2007–2008 Department Outcomes/Goals	Success Criteria (e.g. outcomes, enrollment increases)	Plan of Action (including resources needed)
1	6 7 9	1	Students completing the program will obtain employment in the administrative services field.	<ul style="list-style-type: none"> • Over a three-year period, 75% of graduates in the OST program whose goal was to obtain a job will indicate that, within six months of graduation, they are employed in the field or they are continuing their education. • FTE enrollment in the OST program will increase by 50% by fall 2008. 	<ul style="list-style-type: none"> • Program Coordinator will monitor the results in the survey of graduates as conducted as part of the annual program review process. • Program Coordinator will establish a method by which students may earn certification (e.g., International Association for Administrative Professionals)
2	6 9	1 5 7	Upon graduation, OST majors will express satisfaction with their instructional program.	<ul style="list-style-type: none"> • On the annual survey of graduates for the past three years, 90% of OST program graduates will indicate satisfaction with the overall quality of the academic program. • On the annual survey of employers for the past three years, 90% will indicate they are satisfied with the skills and knowledge of graduates from this program. 	<ul style="list-style-type: none"> • Program Coordinator will monitor the results in the survey of graduates as conducted as part of the annual program review process. • Program Coordinator will monitor the results in the survey of employers as conducted as part of the annual program review process. • Program Coordinator will meet with appropriate SCC staff members to seek ideas and support for recruitment and
