

Spring 2006 Early Registration November 14-18

November 14-18 is early registration for spring semester 2006.
Payment deadline is January 6, 2006.

Why should you register early?

Class availability is at its best! You get the classes you need at the times that are most convenient for your busy life.

What do you need to do now?

1. Make an appointment with your advisor ~ sign-up sheets are posted at office doors.
2. Go to the spring class schedule at:
www.southwest.cc.nc.us/acadprog/spring/spring06.pdf and tentatively plan your schedule BEFORE you see your advisor. Be sure to have alternative class choices in case some classes are full. Refer to your SCC catalog for degree requirements and check the web page often to see if additional spring classes have been added to the schedule.
3. Clear all outstanding debt to the college (parking, library, loan equipment). You will not be able to secure a spring schedule if you have outstanding college debt.
4. If you were a new student fall 2005 and did not attend orientation, go online at www.southwest.cc.nc.us/orientation/index.htm and complete the orientation course BEFORE early registration week.
5. The registration process is not complete until you let the business office know your intentions to pay. In most cases, you will be signing a form stating you are receiving financial aid, 3rd party or scholarship funds. If you are paying cash, you need to secure your spot by paying your tuition. **The cost to attend SCC is \$41.50 per credit hour. Payment must be received by 6:00 PM on January 6, 2005.**

More on back~

Are you curious about on-line classes?

On-line classes are hot commodities these days and the on-line sections tend to fill up quickly. If you are interested in distance learning, we encourage you to go to www.southwesterncc.edu/distlearn/blackboard/student03.htm before signing up for an on-line course. Complete the technical skills and student skills quizzes to see if on-line learning is right for you. As always, your advisor will have valuable input regarding SCC's on-line offerings and your success.

Destination Graduation? If you are ready to graduate spring semester 2006, you must complete an application for graduation with your advisor by March 24, 2006.

Changing majors? Moved? New phone number? See your advisor or Enrollment Services to update your records.

If you have additional questions, these people are ready to help:
