SUBJECT: OUTDOOR LEADERSHIP

Background

The College is in the process of developing an exciting and new program in Outdoor Leadership. Outdoor Leadership takes technical skills related to outdoor activities and combines them with the foundation of general education, business and computer skills to allow graduates to find employment in leadership positions with outdoor activities in our region. Students completing this course of study will be awarded an Associates Degree. If approved, the program is projected to begin Fall 2000.

Recommendation

We recommend approval of the new Outdoor Leadership program.
