

SECTION V

PLANNING/OUTCOMES DOCUMENTS

The Planning/Outcomes Documents are a critical component of the overall planning process at Southwestern Community College. This document serves a three-fold purpose- it allows each area to develop departmental mission and vision statements, it enables departments to develop outcomes/goals each year, along with the criteria for assessing each outcome/goal, and it enables departments to assess its success in achieving those outcomes/goals along with an analysis of how the criteria results were used to make improvements to the department. Copies of this year's report for administrative and academic departments are included in this section. Administrative departments and Continuing Education programs are grouped together in alphabetical order, and Curriculum programs (also listed in alphabetical order) are categorized by division. It should be noted that curriculum programs do their plans in two phases- an end of the year report in May, with the initial plan for each academic year being developed in August at the start of fall semester. This is a result of the fact that curriculum programs at Southwestern operate on a nine-month calendar.

Administrative Departments & Continuing Education	
Administrative Services	Institutional Research & Planning
Admissions	Macon Campus
Business Services	Office for Grant Activities
Career Counseling	President's Office
Community & Resource Development	Public Information
Continuing Education- Cashiers Center	Registrar
