Student Record Policy	Defines the right of access to students' records.
Student Right-To-Know	Defines campus procedures for making available student retention and persistence information.
Student Rights, Standards of Conduct, Discipline, Appeal and Grievance Procedures	Defines students' rights and standards of conduct and outlines disciplinary procedures and sanctions. Defines grievance procedures – Academic and Non-Academic.
Traffic Code	Traffic and parking regulations for the SCC campus

STUDENT RIGHT-TO-KNOW INFORMATION

Southwestern Community College is committed to informing enrolled and prospective students about the probabilities of success in each program as well as current job market information. The United States Department of Education requires that each institution of higher education publish completion rates for individuals who entered as full-time students and who completed their curriculum programs within one-and-one-half times the time allowed for the program in the academic catalog. The average rate of persistence toward degree completion of students in each curriculum at Southwestern is available from the Registrar. The Career Assessment and Testing Services can provide current job market information and job-placement data for each academic program
