

Smarthinking Overview Webinars With Subject Focus

Smarthinking is an online tutoring service available to students at your institution. With online tutoring services from Smarthinking, students receive on-demand, individual instruction and support from expert online tutors across a wide variety of subjects— from beginner to advanced, up to 24 hours a day.

Join us for a Smarthinking subject-specific webinar with our Education Team in one of these core areas: Writing, Career Writing, Mathematics, Science, Nursing/Health, and Business. Following an overview of the Smarthinking service, a member of our Education Team will discuss how Smarthinking tutors work with your students and will share ideas to enhance your course with guided Smarthinking tutoring interventions and assignment integrations. The session will wrap-up with time for attendee questions.

Click the session title you would like to attend, select a time, and complete the registration for these complimentary sessions. Do you teach in multiple areas or have cross-curricular projects? Sign up for more than one!

Scheduled webinars for June and July 2017 Click the respective links below to register for any sessions
