1. University degree requirement: 25% of hours applied toward the bachelor's degree must be 300 - 400 level. 128 / 4 = 32 hours 2. Major requirement: 50% of credits in major must be 300 - 400 level. 58 / 2 = 29 hours. This includes transfer hours. 3. New Liberal Studies Constraints: Students who take higher-level sciences may have to take additional LS courses. * = preferred course							

Engineering Technology Articulation Agreement

- A. Students will be admitted as candidates for the articulation program in Engineering Technology upon completion of the A.A.S. degree.
- B. Students can earn additional semester hours of transfer credit by completing general education and program requirement courses. Students who complete the 44 hour general education core of courses approved in the Comprehensive Articulation Agreement in 1997 will have WCU liberal studies requirements waived. Courses used to complete the 44 hour core must be North Carolina community college system semester courses. All courses must be completed with a "C" or higher grade.
- C. To graduate from Western all students must complete a minimum of 32 semester hours of upper level Western course credit, including a minimum of 12 hours in the major field as described in the attached course equivalency outline.
- D. This agreement will run continually without need for renewal. Copies of this agreement will be distributed to the deans and department heads by February 1 of each year. Any updates to this agreement should be submitted by March 15. If curriculum changes occur in any of the courses identified in this agreement, parties from both institutions will review the changes and update the course equivalency outline.
- E. Either party upon written notice can terminate this agreement. If the agreement is terminated, students who have matriculated at WCU can continue until completion of the baccalaureate degree if they are continuously enrolled at Western. Also, students who are enrolled at the community college at the time may continue under the terms of the agreement as long as they are continuously enrolled. If the student ceases enrollment for two regular academic semesters, he/she must re-enroll under the most recently adopted agreement.
