

## **Career Services**

Southwestern Community College has a comprehensive [Career Services](#) program.

Some of the ways we help students is helping them [identify career options](#) that best fit their strengths, interests, and personality and will help contribute to their family and the regional economy.

We also help students create their first resume or update their [current resume](#).

The purpose of our [Job Fairs](#) is to help students and anybody in the public reach out to employers that connect with them and help employers find local people to hire.

One of the things that makes SCC really special and makes Career Services at SCC very effective is our overall theme of [PEAK](#), which is a metaphor and an acronym.

[PEAK](#) stands for “[Professional Exploration and Knowledge](#)” and everything Career Services does in partnership with faculty and employers support student success as they seek to become professionally knowledgeable and ready for the real world.

My name is [Jodie Waldroup](#) and I’m a Career Counselor in Career Services.

I’m [Michael Despeaux](#) Director of Career Services here at Southwestern Community College.
