

SOUTHWESTERN COMMUNITY COLLEGE	INFORMATION TECHNOLOGY COMPUTER RESOURCES, INTERNET AND NETWORK ACCEPTABLE USE POLICY	Policy 8.02
-----------------------------------	---	----------------

I. PURPOSE

Southwestern Community College strives to provide computer resources, Internet and network access in an environment in which access is shared equitably among users. This access is intended to be used in support of the College's research, educational and administrative purposes. College owned or operated computer resources are for the use of College employees, students and other authorized individuals. To this end, the President is authorized to develop appropriate procedures regarding the acceptable use of College owned computer resources and Internet and network access to protect the College's technology users and computer resources and to ensure equitable access and proper management of these resources.

II. Procedures
