

SOUTHWESTERN COMMUNITY COLLEGE	INFORMATION TECHNOLOGY VULNERABILITY MANAGEMENT	Policy 8.22
--------------------------------------	---	----------------

I. POLICY STATEMENT

At Southwestern Community College ("College"), cybersecurity professionals are constantly challenged by attackers actively searching for vulnerabilities within enterprise infrastructure to exploit and gain access. Defenders must leverage timely threat information available to them about software updates, patches, security advisories, threat bulletins, etc., and they should regularly review their environment to identify these vulnerabilities before the attackers do. Understanding and managing vulnerabilities is a continuous activity, requiring focus of time, attention, and resources.

II. PROCEDURES

See SCC Procedure 8.22.01 (VULNERABILITY MANAGEMENT).

Adopted: September 2025

Revised: N/A
