

eCourse Overview:

Up to 30 days prior to your class meet date you will receive guidance on completing your online portion of the class. You must have this portion completed and a certificate printed for your Saturday class start date.

SCC and MSF are excited to embrace digital technology in the form of online education. Our newest offerings represents our continuing commitment to educating motorcyclists and other roadway users in a variety of ways and through multiple channels.

The *eCourse* is a highly interactive online program that provides riders of all skill levels with the basics of motorcycling. With integrated graphics, photos and video to help better illustrate the lessons, the program allows you to control the pace of your learning. The Basic *eCourse* can help you determine whether motorcycling is actually a good personal fit. Although it's a key component of the *Basic Rider Course*.

Though the MSF Basic *eCourse* is NOT accepted as a license waiver by any state department of motor vehicles, or as a license to ride a motorcycle or a learner's permit, it is a highly interactive online program that provides riders of all skill levels with the basics of motorcycling. With integrated graphics, photos and video to help better illustrate the lessons, the program allows you to control the pace of your learning.

Taking the MSF Basic *eCourse* is as easy and convenient as powering up your home computer or laptop. Students can choose when and where to take the course, which saves valuable time and money. The Basic *eCourse* promotes lifelong learning. Once you create an account you can retake the course whenever you want a refresher.

Perhaps most importantly, the *eCourse* serves as an introductory check for anyone interested in riding a motorcycle. It helps you determine whether motorcycling is actually a good personal fit.

The eCourse is a perfect fit for:

- New riders preparing to take the hands-on MSF Basic Rider Course, the “gold standard” in motorcycle safety training with over 7 million student rider graduates since 1974.
- Potential riders considering motorcycling as a hobby, sport or for personal transportation.
- Experienced riders looking to refresh their motorcycling skill set and overall knowledge.
- Anyone interested in learning more about motorcycles.

The eCourse is Not:

- The *eCourse* is NOT accepted as a license waiver by any state department of motor vehicles, or as a license to ride a motorcycle or a learner's permit.
- The *eCourse* is NOT a hands-on course. The curriculum is designed primarily to prepare you for the hands-on MSF Basic Rider Course which includes in-depth classroom activities, learning assessments and hands-on application of concepts to riding exercises on a closed-course range.

About the eCourse

- The *eCourse* focuses on the basic concepts of motorcycling. From identifying a motorcycle's controls to explaining how they work, the course also details a motorcycle's basic operation, prepares a student to ride, provides strategies for common riding situations and more. Additionally, the *eCourse* outlines key safety concepts to promote responsible riding and risk-reducing behavior.
- The *eCourse* allows you to set your own pace of learning. You can bookmark where you left off and come back at a later time. And you can repeat segments you want to go back to and review or for reinforcement. Throughout the highly interactive course, self-assessment exercises allow you to rate your overall rider readiness. Finally, the MSF Basic *eCourse* makes students aware of the risks as well as the joys of being a motorcyclist.

eCourse Outline:

The *eCourse* includes 12 sections that follow the content in the MSF Rider Handbook:
